Hey Love

12 Stones

Hey, hey loveLooking back on everything I've done I never thought I'd find the one To share the dreams that only I had seen Locked in the deepest part of me (Hey, hey love)I took a chance to lay it on the line There was nothing left to hide behind If you never love then you may never lose And I hope I'll always be with you Now I'm screamingHey love, won't you leave your touch On this heart that's broken I can't breathe when you're not here Hey love, won't you lift me up On the wings that fly higher Than the stars that shine above Hey, hey love Thinking back on everything we've done

We watched the waves drown the sun

We shared a dream that both us had seen

We made it our reality

(Hey, hey love)We found a way to stand the test of time

All of our doubts were left behind

If you never love then you may never lose

And I hope I'll always be with you

Now I'm screamingHey love, won't vou leave your touch

On this heart that's broken

I can't breathe when you're not here

Hey love, won't you lift me up

On the wings that fly higher

Than the stars that shine above

If darkness should fall upon our hearts

Remember the dreams from the startHey love, won't you leave your touch

On this heart that's broken

I can't breathe when you're not here

Hey love, won't you lift me up

On the wings that fly higher

Than the stars that shine aboveHey love, won't you leave your touch

(Hey, hey love)

On this heart, on this heart, on this heart I can't breathe when you're not here

(Hey, hey love) Hey love, won't you lift me up

(Hey, hey love)

On your wings, on your wings, on your wings
