

Hope Is Just Ahead (feat. Dionne Warwick)

Billy Ray Cyrus

VERSE 1:

I wondered why I had the blues, so I turned on the evening news, children runnin' from their school because of some damn fool, had no morals he must prove. Another kid laid in the blood, another town drowned in the flood, just a tragic trail of tears, lessons not learned through the years, heaven save us from our fears.

Hope is just ahead, sorrows just behind us, from what the good book says, "the truth will never find us" who's to say what we shall find, I guess the proof was sure in time, to them let's keep the dreamers big, surely hope is just ahead.

INSTRUMENTAL BREAK

Oh, you gotta believe
You gotta keep your faith
Get down on your knees
Oh, you gotta believe

VERSE 2:

People fightin' in the streets, millions with no food to eat, how much longer can we last, if we learn nothin' from our past, these are the questions in our heads.

REPEAT CHORUS

To them, let's keep the dreamers big, surely hope is just ahead... mmmm

INSTRUMENTAL BREAK

Oh, you gotta believe
Keep your faith
Get down on your knees
Oh, you gotta believe
Oh, you gotta believe
Gotta keep your faith
Get down on your knees
Oh you gotta believe
