## The Soft Pack

There's a hot pursuit  
Between me and my boy  
If he would might trick me I can't keep up A menace, a bad thing to be  
I've said enough, heard enough obscenity  
Time to time there's a recovery  
I've got to try out to save the life in me but I feel I need a. T A L L B O Y  
T A L L B O why should I try?  
If I will just fall behind I remember when I'd do it to myself  
To find some stable ground, some mental health A menace, a bad thing to be  
I've said enough, heard enough obscenity  
Time to time there's a recovery  
I've got to try out to save the life in me but I feel I need a.  
T A L L B O Y  
T A L L B O why should I try?  
If I will just fall behind
