

Keep It Right Here

Solo

Slow down baby
The lovin' ain't goin' nowhere
Hey Don't rush baby
The lovin' ain't goin' nowhere
Slow down When we make love
Baby all we've got to do is take our time
And get it, get it right in the groove
Now there's no need for us to be
In a rush, so slow it down
Slow it down and get it right
Now baby it's understood
When the lovin' is feeling good
So let's just take our time and
Make it last Don't rush baby
The lovin' ain't goin' nowhere
Slow down Now I got a feeling baby
That tonight could be the night
Don't rush it don't fight it
If you've got a notion
Baby please let it be slow motion
Slow it down baby
Keep it right there, keep it right here
Now baby it's understood
When the lovin' is feeling good
So let's just take our time and
Make it last Don't rush baby
The lovin' ain't goin' nowhere
Slow down
