

# Hold On for Dear Love

[Bridgit Mendler](#)

...

I been staring at the ceiling,  
watching the fans go round and round round  
cause I can't hear my breathing the words we said are still so loud, loud, loud  
and we been drifting off so far  
that I don't even know where we are  
before we jump, before we leave and all this lost for you and me, yeah  
If we're not stupid,  
we'll both hold on for dear love  
fight the way through this, it's not worth just giving up  
cause I got some fire left in me  
And I don't see us endin' this way  
If we're not stupid, we'll both hold on for dear love, love

...

I been weight down by the silence,  
all this words that don't come out, out be tempting just to write it  
and say I'm sorry without a sound, sound, sound  
cause we been drifting off so far  
that I don't even know where we are  
but we can try, and we can speak  
before we lost in definitely  
if we're not stupid,  
we'll both hold on for dear love  
fight the way through this  
It's not worth just giving up  
Cause I got some fire left in me  
And I don't see us endin' this way  
If we're not stupid,  
we'll both hold on for dear love, love  
I been terribly human  
using you like a punching bag  
and you been terribly angry  
taking out all of yours worst words on me  
and I see what we were  
and I know that we're hurt,  
but I know that is worth it to fight  
for all of our love tonight  
If we're not stupid,  
we'll both hold on for dear love  
fight the way through this  
it's not worth just giving up  
cause I got some fire left in me

and I don't see us endin' this way  
If we're not stupid,  
we'll both hold on for dear love, love, love, love, love  
end
