

Losing the Love

TINI

your arrow shot, straight trough my heart,
ly in the line, push past the dark
we once we're young, but now we're only safe our face
we could never change the blood flow
still looking back ain't single trace
this love is a fever,
and i'm hit
can't standing on bleeding, let me in
we're losing the loooove
we're losing the loooove
this love was a shelter,
from the storm
i love to come home too, never more
we're losing the loooooove
we're losing the loooooove
(oh, ohoh)
(ohohohoh)
the walls we build, can't keep us in
the truth is out, the sand pick begins
we're once we're young, but now we're always safe our face
we can never change the blood flow,
still looking back but ain't single trace
this love is an fever, and i'm hit
cause standing on bleeding, let me in
we're losing the loooooove
we're losing the loooooove
this love was a shelter, from the storm
i'd love to come home too, never more
we're losing the loooooove
we're losing the loooooove
ever wonder why we stay in this room,
living is the only promises we made
fighting hard to get the walls a break
this love is a fever, and i'm hit
can't standing on bleeding, let me in
we're losing the loooooove
we're losing the loooooove
this love is a fever, and i'm hit
can't standing on bleeding, let me in (just let me up in there)
we're losing the loooooove
we're losing the loooooove (we are losing the loove)
your love was a shelter, from the storm

enough to come home too, never more
we're losing the loooooove
we're losing the loooove
this love is a fever, and i'm hit
can't standing on bleeding, let me in
