

Swerve

Florida Georgia Line

It ain't the proof or the alcohol, nah
It's got my back up against the wall
Staring at you, you, you
Watching you move, move, move, yeah And I can't even walk across the room without losing
my cool
You got my world tippin' and spinnin' doin' what you do
Yeah, you're making me swerve Hey girl, what's your name?
You must get it from your mama
Does your daddy let you date with all them curves? Hold on
Yeah, where you learn to dance?
Yeah, I'm a two-step up to you with that booty in them pants
Way you rollin' in that body, feel like I'm in a Bugatti
And I know I'm 'bout to lose control
You're making me swerve
(Making me, making me swerve
Making me swerve
Making me, making me swerve)
You're making me swerve
(Making me swerve
Making me, making me swerve
Making me swerve
Making me, making me swerve) Yeah, I just really came to chill tonight, but
You got me silly, girl, you got me high
'Cause you so fine, fine, fine
I'm losing my mind, mind, mind, yeah And I can't even walk across the room without losing my
cool
And girl you change the game, you got me changing lanes to hang with you
Yeah, you're making me swerve
Hey girl, what's your name?
You must get it from your mama
Does your daddy let you date with all them curves? Hold on
Yeah, where you learn to dance?
Yeah, I'm a two-step up to you with that booty in them pants
Way you rollin' in that body, feel like I'm in a Bugatti
And I know I'm 'bout to lose control You're making me swerve
(Making me, making me swerve
Making me swerve
Making me, making me swerve)
You're making me swerve
(Making me swerve
Making me, making me swerve
Making me swerve

Making me, making me) And I ain't ever been down this road before
And I ain't ever met nobody like yours
You're making me swerve
You're making me swerve
You're making me swerve
You're making me swerve, swerve
Let's go Way you rollin' in that body, feel like I'm in a Bugatti
And I know I'm 'bout to lose control
You're making me swerve
(Making me, making me swerve
Making me swerve
Making me, making me swerve)
You're making me swerve
(Making me swerve
Making me, making me swerve
Making me swerve
Making me, making me swerve)
