Miss You

Foster the People

Forget your problems Lay it down, they start up The innocence of what you are is what I want I've ran my colors dripped down and drained out Tried a million things, but my heart's been shotWell I hope you try to find me, I'm all spun and pacing I know what you want to say here, so say it Forget the words I'm speaking Just want to rearrange so I'll just say it Ooooooooooo yeah.I really miss you, I miss you, I said Smile at the chance just to see you again I really miss you miss you, I said Yeah Yeah YeahHeat stroke, death's like The wrong things that I think are rightI never knew that I could go as far as this I took a problem recently forgotten I know who I had been before I slipped Oh, I want to change it I will live a life that makes you smile When I'm done here and long gone Feverish speaking, just wanna see your face Oh, What you say, what you say? Oh yeah I really miss you I miss you, I said Smile at the chance just to see you again I really miss you miss you, I said So Look at me now Before I walk away You just might miss me or miss me one day Yeah Yeah Yeah
