

Heavy, California

Jungle

One day she'll take the world from you Women, baby, that I meet, yeah

They all tell me I don't need ya now

Runnin', baby, hold on

I'll be here for you Just hold me

I'm a lonely heart

You've been miles away

Just hold me

And we'll never get hurt

You've been miles away

Heavy, California

I will love you, can't afford you

It's a heaven waitin' for you

So I'm headin' for California

Our love

California Miss the sunlight

I was sayin'

Your love was so crazy

So hold on to it for me

Come on, baby

Hold on

I'll be here for you Heavy, California

I will love you, can't afford you

It's a heaven waitin' for you

So I'm headin' for California

Our love

California

Just hold me

I'm a lonely heart

You've been miles away

Held up at the border

Just hold me

And we'll never get hurt

You've been miles away Heavy, California

I will love you, can't afford you

It's a heaven waitin' for you

So I'm headin' for California

Our love

California

Our love

California

California
