Rainy Day

Fool's Garden

The parridge's been good The marmalade too I take another slice of bread The bacon is hot but I don't mind Too long I boiled the egg I'm still a little tired, my bones are weak Another day off I take I guess the sun had the same idea And now we have a break It's a rainy day, a rainy day But I love it It's a rainy day The water comes down But I love you Milkman Mr Miller is ringing my bell Do you take a litre or two But I don't wanna drink his milk today I feel fine without it too He steps into a puddle by going away I hear him swearing at The forecast promised high pressure today And now he's getting wet It's a rainy day, a rainy day ... Rosalie Mac Lovely is waiting for a cab In the middle of the pouring rain Old bold head Mac Arthur is waiting For his hair to grow again Once upon a time he was a curly head But all those days are gone And now he's looking like a fireball When he gets into the sun It's a rainy day, a rainy day...
