Good Company

Jake Owen

We're just back porch sitting Doing some old school picking Got some brand new strings on my Gibson Yeah, I'll play your favorite song The cooler's down to the last drop But it won't last that way long Cause Tommy's making a beer run So baby, come on We in good company Yeah, the only thing missing Is a pretty girl sitting next to me Kissing up on me, and I got a spot waiting on you So B.Y.O.B, it means bring yourself over, babe Got them good vibes, good times And damn good memories We in good company Yeah, we in good company Well, the pool's full, come on get in it Got a hole, throwing bean bags in it And Robby's painting on the brisket It's a [?] masterpieceYou know they make Saturday's For doing whatever you want The weekend's where it begins So baby, baby come on We in good company Yeah, the only thing missing Is a pretty girl sitting next to me Kissing up on me, and I got a spot waiting on you So B.Y.O.B, it means bring yourself over, babe Got them good vibes, good times And damn good memories We in good company, yeah Oh, we in good company We got them good vibes Them good times And damn good memories We got that good wine Off that good vine It's a damn good night to be...In good company The only thing missing Is a pretty girl sitting next to me Kissing up on me, and I got a spot waiting on youWe in good company Yeah, the only thing missing

> Is a pretty girl sitting next to me Kissing up on me, and I got a spot waiting on you

So B.Y.O.B, it means bring yourself over, babe
Got them good vibes, good times
And damn good memories
We in good company, yeah
We in good company
Yeah, we in good company
