## **Simple Things**

## **Usher**

Yeah, uhh They say money can't buy you love They say money can't buy you love They never seem to listen I'm all earsJust copped your girl a brand new Rolex But you can never find the time to spend at home Thinkin' it's gon' keep her happy When time is all she wanted all along(Chorus) It's the simple things in life we forget You hear her talkin' but don't hear what she said Why do you make something so easy so complicated Searching for what's right in front of your face But you can't see it So you think that you know what's important Steady chasin' your fame and your fortune But you don't know You're chasing a dime losin' a treasure Those dollars don't make sense to me at all Ooh, it goesDuh da duh da You give her spending money Duh da duh da But all she wanna spend is time alone (tonight) Keep givin' her The finer things but But she don't really need that If you don't stop you're You're gonna end up alone (alone) The world without love (duh duh da duh da) Why would you do it (Chorus x2)

It's the simple things in life we forget
You hear her talkin' but don't hear what she said
Why do you make something so easy so complicated
Searching for what's right in front of your face
But you can't see itIt's the simple things in life we forget
You hear her talkin' but don't hear what she said
Why do you make something so easy so complicated
Searching for what's right in front of your face
But you can't see it (listen)Stop tryna buy her love
'cuz you won't ever have enough
There's always someone with more than you
You need to pay her attention

Give her what she needs
Do the simple things
Before you lose your girl to me
Yeah yeah yeah yeah
Yeeeah yeah
Play on playa
Yeah

Your girl comin' wit' me shorty, haha I'm tellin' you man 'cuz u know(Chorus)

It's the simple things in life we forget
You hear her talkin' but don't hear what she said
Why do you make something so easy so complicated
Searching for what's right in front of your face
But you can't see itYou better look out
I hear you talkin', i hear you talkin' (ha)

But what are you saying

Oh hoo oh hooo Don't be a fool

You got a good thing

Man are you blind

Stupid or crazy?

You got a good thing (uh)

You got a good thing

If that's your lady

You better hold on

And give her what she want

Before she move on

Man I tell you cars, clothes, and fancy things don't mean a damn thing

If you ain't kickin it baby(Chorus)

It's the simple things in life we forget

You hear her talkin' but don't hear what she said

Why do you make something so easy so complicated

Searching for whats right in front of your face

But you can't see it(Fade)

Don't let this be the thing you'll always regret, no

It's right there, it's right there
