

Crazy Youngsters

Ester Dean

One day the world will be gone
There'll be no one here to walk the land
One day what you know will be wrong
There'll be no one here to hold your hand
Right now we're crazy youngsters
Time is running out, but who cares we're running free
They call us crazy youngsters
We don't apologize, we're mad and running free
They call us crazy youngsters
Time is running out but who cares we're running free
Hell yeah, we're crazy youngsters
We don't apologize, we're mad and running free
(Cause we got) Hey, we got a lot of things to do (Hey)
Hey, we got a lot of things to prove
(Yeah we got) Yeah we got a lot of room to grow
(Hey) Yeah we got a lot of miles to go
So we keep driving, we keep driving
One day when the story's all told
There'll be no more words to fill the page
One night when the stars are all gone
There'll be no more light to guide the way
Right now we're crazy youngsters
Time is running out, but who cares we're running free
They call us crazy youngsters
We don't apologize, we're mad and running free
They call us crazy youngsters
Time is running out but who cares we're running free
Hell yeah, we're crazy youngsters
We don't apologize, we're mad and running free
(Cause we got) Hey, we got a lot of things to do (Hey)
Hey, we got a lot of things to prove
(Yeah we got) Yeah we got a lot of room to grow (Oh grow)
(Hey) Yeah we got a lot of miles to go
So we keep driving, we keep driving (Oh) We keep driving, we keep driving (driving, driving,
hey) And don't blink till its over (over)
The fun has just begun
Let's finish the race
While our hearts are young (Cause we're) Cause we're crazy youngsters
Time is running out but who cares we're running free
Hell yeah we're crazy youngsters (crazy youngsters)
We don't apologize, we're mad and running free (Cause we got) Hey, we got a lot of things to do
(Hey)
Hey we got a lot of things to prove
(Yeah we got) Hey, we got a lot of room to grow
(Hey) Yeah we got a lot of miles to go
So we keep driving, oh ooh oh Hell yeah we're crazy youngsters

We keep driving, driving, driving, driving
