

# Tuesday Night

Adam Hood

Tuesday Night  
I'm always hoping for a good time  
never happens on a tuesday night  
two weeks and I'm hearing the same play  
the same rhythm for most of my life I hear takin from everyone's cigarette  
my hands hurting from the steel strings  
5 hours and it never did bother me  
I was the only one listening  
my life's just around me, crazy, livin every day like I do  
I'm just glad there's someone like you I can come home to  
I've spent my whole life searching for a road taking me everywhere  
and I want to spend some time with you, baby  
it's so hard when I'm never there it takes everything to follow my heart  
and sometimes I'm so afraid  
I had to fight like every dog searching, baby  
I pull the brakes and stop the train I know we're tired and lonely  
love is gonna pull us through  
'cause I'm so glad there's someone like you I can come home to  
my life's just around me, crazy, livin every day like I do  
I know we're tired and lonely  
love's gonna pull us through  
and I'm glad there's someone like you I can come home to girl, I'm so glad there's someone like  
you I can come home to
