

# Back Home (feat. Jake Owen)

## Owl City

I'm saying goodbye to the skyline  
Hello to the sweet pines  
Gonna see you later street lights  
I'm headed back to tree lines  
To free time and starry nights  
To bonfires and fireflies  
Pack your bags it's time to go  
Cause we got brighter lights back home  
I've got aching feet  
From walking over miles of concrete  
And I can't wait to dream  
But the city, you know she won't go to sleep  
So I'm saying  
Goodbye to the skyline  
Hello to the sweet pines  
Gonna see you later street lights  
I'm headed back to tree lines  
To free time and starry nights  
To bonfires and fireflies  
Pack your bags it's time to go  
Cause we got brighter lights back home  
Yeah, we got brighter lights  
Back home there's a girl named Mary Lou  
A diner off the highway with a corner booth  
And every gravel road is a trip down memory lane  
And back home, where the corn grows ten feet tall  
Every year's measured on the pantry wall  
The willow trees are waving 'til we come back home again  
I'm saying goodbye to the skyline  
Hello to the sweet pines  
Gonna see you later street lights  
I'm headed back to tree lines  
(To free time and starry nights  
To bonfires and fireflies  
Pack your bags it's time to go)  
Pack your bags it's time to go  
I'm saying goodbye to the skyline  
Hello to the sweet pines  
Gonna see you later street lights  
I'm headed back to tree lines  
To free time and starry nights  
(To bonfires and fireflies)

Pack your bags it's time to go  
(Cause we got brighter lights back home)
