## Luh Kel

Nah Nah Nah Nah Huh Uh Nah Yeah Nah Nah ahh  
Girl my mood changed when you walk  
through the door

Before you came there were tears on the floor  
Girl you so perfect i think that its workin  
You gave me your love now i really want more  
Girl you so different, apart from the rest  
Cool i dropped out, I don't really take tests  
You gave me your love now i'm addicted like drugs  
Girl i think you the plug, You the one with the best  
You did me wrong  
You did me wrong  
You did me wrong  
Girl you did me wrong  
You did me wrong  
You did me wro-o-o-ong

All by my side  
Argue less talk i need you by my side  
You had my back when the gang used to slide  
Now you gone tell me you done with my time  
I thought that i needed you in my life  
All of them times that you talked what you liked  
Girl you was down and you told me you rolled like my rollie  
Im done cause you lied with my guys like nah  
The only plan was to ball  
Remember them times when we fall, but we got up and fought  
I tried to leave you and stall  
Baby I gave you my all, my all, my all  
No calling, road in the back seat, yeah you used to ride like a taxi  
Yeah my heart feel so deep in the black seat,  
My heart feel so deep in the black seat  
Girl  
my mood changed when you walked through the door  
Before you came there were tears on the floor  
Girl you so perfect I think that its workin'  
You gave me your love now I really want more  
Girl you so different apart from the rest  
Cool I dropped out, I don't really take test  
You gave me your love, I'm addicted like drugs  
Girl I think you the plug, you the one with the best  
You did me wrong, You did me wrong  
You did me wrong, You did me wrong  
Girl you did me wrong, You did me wrong  
You did me wro-o-o-o-n-g
