## Luh Kel

Nah Nah Nah Nah Huh Uh Nah Yeah Nah Nah ahh Girl my mood changed when you walk  
through the door

Before you came there were tears on the floor

Girl you so perfect i think that its workin

You gave me your love now i really want more

Girl you so different, apart from the rest

Cool i dropped out, I don't really take tests

You gave me your love now i'm addicted like drugs

Girl i think you the plug, You the one with the best You did me wrong

You did me wrong

You did me wrong

You did me wrong

Girl you did me wrong

You did me wrong

You did me wro-o-o-ong

All by my side

Argue less talk i need you by my side

You had my back when the gang used to slide

Now you gone tell me you done with my time

I thought that i needed you in my life

All of them times that you talked what you liked

Girl you was down and you told me you rolled like my rollie

Im done cause you lied with my guys like nah

The only plan was to ball

Remember them times when we fall, but we got up and fought

I tried to leave you and stall

Baby I gave you my all, my all, my all

No calling, road in the back seat, yeah you used to ride like a taxi

Yeah my heart feel so deep in the black seat,

My heart feel so deep in the black seat Girl

my mood changed when you walked through the door

Before you came there were tears on the floor

Girl you so perfect I think that its workin'

You gave me your love now I really want more

Girl you so different apart from the rest

Cool I dropped out, I don't really take test

You gave me your love, I'm addicted like drugs

Girl I think you the plug, you the one with the best

You did me wrong, You did me wrong

You did me wrong, You did me wrong

Girl you did me wrong, You did me wrong

You did me wro-o-o-o-n-g
