

# Moment of Truth

CYN

Here we are in the best years of our lives  
With no way of knowing when the wheel'll stop spinning  
'Cause we don't know where we're going  
And here we are on the best day of our lives  
And it's a go, let's make it last, so cheers you all to that  
'Cause this moment's never coming back  
I used to know her brother but I never knew I loved her  
'Til the day she laid her eyes on me  
Now I'm jumping up and down, she's the only one around  
And she means every little thing to me  
I've got your picture in my wallet  
And your phone number to call it  
And I miss you more whenever I think about you  
I've got your mixed tape in my walkman  
Been so long since we've been talking  
And in a few more days we'll both hook up forever and ever  
And here I am on the west coast of America  
And I've been trying to think for weeks of all the ways to ask you  
And now I've brought you to the place where I've poured my heart out  
A million times, for a million reasons to offer it to you  
I used to know her brother but I never knew I loved her  
'Til the day she laid her eyes on me  
Now I'm jumping up and down, she's the only one around  
And she means every little thing to me  
I've got your picture in my wallet  
And your phone number to call it  
And I miss you more whenever I think about you  
I've got your mixed tape in my walkman  
Been so long since we've been talking  
And in a few more days we'll both hook up forever and ever  
I used to know her brother but I never knew I loved her  
'Til the day she laid her eyes on me  
Now I'm jumping up and down, she's the only one around  
And she means every little thing to me  
I've got your picture in my wallet  
And your phone number to call it  
And I miss you more whenever I think about you  
I've got your mixed tape in my walkman  
Been so long since we've been talking  
And in a few more days, we'll both hook up forever and ever
