

Burden Down (Raphael Topas Extended Remix)

Micar

Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine Like a bird she tries to fly
To live her life
Spread her wings
But it's hard to rise with a happy mind
She's a beauty caught in trap cage
Any time of change will emerge
She's gotta shine Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine Like a bird she tries to fly
To live her life
Spread her wings
But it's hard to rise with a happy mind
She's a beauty caught in trap cage
Any time of change will emerge
She's gotta shine Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine
Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh
Let you're color shine
