## Burden Down (Raphael Topas Extended Remix)

## Micar

Ohm sweet lady
If you just could lay your burden down
Please just realize
It's a sigh

Let you're color shineOhm sweet lady If you just could lay your burden down Please just realize

It's a sigh

Let you're color shineLike a bird she tries to fly

To live her life

Spread her wings

But it's hard to rise with a happy mind She's a beauty caught in trap cage
Any time of change will emerge
She's gotta shineOhm sweet lady

She's gotta shineOhm sweet lady If you just could lay your burden down

Please just realize

It's a sigh

Let you're color shineOhm sweet lady If you just could lay your burden down

Please just realize

It's a sigh

Let you're color shineLike a bird she tries to fly

To live her life

Spread her wings

But it's hard to rise with a happy mind

She's a beauty caught in trap cage

Any time of change will emerge

She's gotta shineOhm sweet lady

If you just could lay your burden down

Please just realize

It's a sigh

Let you're color shine

Ohm sweet lady

If you just could lay your burden down

Please just realize

It's a sigh

Let you're color shine
