neolHa Hyun Woo - Vagabond English Translation

My tired soul has lost a place to stay
 Loneliness coldly presses down on me
 When the black sun started to burn me
 The wind quietly brought you here
 My dreams that walked with me
 That were broken into the darkness
 Is coming back to me along with you
 In front of all the worlds I draw out
 You're there with me
 You're a star that flows in me
 The single ray of light that pulls me through the night
 Shine in my heart
 Forever shine
 I'll embrace all of your moments
 My sleeping hopes
 That scattered through the mist
 Is coming back to me along with you
 In front of all the worlds I draw out
 You're there with me
 You're a star that flows in me
 The single ray of light that pulls me through the night
 Shine in my heart
 Forever shine
 I'll embrace all of your moments
 You
 I'll protect you
 You
 When the black sun started to burn me
 The wind quietly brought you here
 In the endless darkness
 You shined on my path with starlit eyes
 Shine in my heart
 Forever shine
 All of your moments
 I will love

You
I will love
You
