

Getting Over Him (feat. Jon Pardi)

Lauren Alaina

Heard from a friend of a friend, that you had a reputation
And it sounded like, my kind of lonely medication
I was the girl he'd cheat on Looking for a little bit of neon
So I got drunk, hit you up and you took the invitation We were dive bar kissing
Heartbreak fixing
No strings, Saturday night
Hot like a match, that burned out fast
Forever wasn't in our eyes
You knew it, and I knew it
And it was a damn good time
My last call, first call, no falling
Just my getting over him guy
I was getting over him (Over him, over him) I heard from a friend of a friend, that you had a bad
month, girl
You said that you needed someone, who liked to have a little fun, girl
Turns out that's my specialty
Cooked you up a good recipe
Denim on denim, forget him, yeah we lit it up, girl We were dive bar kissing
Heartbreak fixing
No strings, Saturday night
Hot like a match, that burned out fast
Forever wasn't in our eyes
You knew it, and I knew it
And it was a damn good time
My last call first call no falling
Just your getting over him guy Yeah, you were getting over him
I was getting over him
Girl, I can be your go to
Hold you, savior
Let me know if I can ever
Return the favor We were dive bar kissing
Heartbreak fixing
No strings, Saturday night (Oh yeah)
Hot like a match, that burned out fast
Forever wasn't in our eyes
You knew it, and I knew it
And it was a damn good time
My last call, first call, no falling
Just my getting over him guy
