Paper Waves

The Gathering

Sun comes out - Wakes me up Wanna sleep, need to sleepSaw your face - In my dreams Fade away, far awayFade away, fade awayYou took your time - Passing by Smiles and tears -No one caresHad you once -Now you're gone Want you here, Need you near Dreams and life it seems Are crushing boundaries in me Paper waves and seas - Ride the tide with meNeed to see - You're not far from me I'm breaking time -Crossing linesI start to run -to catch the sun from falling down - and burn this townI try to reach -You slip away Can't you stay - Please just stay Cold and warmth collide Turning dark and light, inside Nights we over fly - All logic gone awryTo know we might not meet again, I hardly bare to look at you In all this mess we don't complain, we kind of always knew
