

Lonely Without You (This Christmas)

[Mick Jagger](#)

I'm going to be lonely without you,
going to be a lonely, lonely Christmas without you.
My future's looking bleak, oh so down I could weep. It's the saddest time of the year, oh yes it
is,
Oh it's going to be a lonely, lonely Christmas without you It's going to be a lonely, lonely
Christmas without you
There's no presents under the tree
There's nobody waiting for me
Oh but you never know, never know what's coming round It's the season of good will, Oh I
guess I love you still
Be a lonely, lonely, lonely, lonely, lonely, lonely Christmas without you.
