

# Chasing Time (feat. Daniel Gidlund)

## Vicetone

If we could drive the words we say  
Every single line could lead the way  
With the speed of light here on our side  
We're chasing time  
Can't afford to lose velocity  
When you're going places never seen  
With the speed of light here on our side  
We're chasing time, chasing time  
Hold on to me  
As we're trading precious time  
for something new  
Hold on to me  
We'll be writing every line  
while rushing through  
If we could drive the words we say  
Every single line could lead the way  
With the speed of light here on our side  
We're chasing time  
Can't afford to lose velocity  
When you're going places never seen  
With the speed of light here on our side  
We're chasing time, chasing time
