

# Raining Glitter

Kylie Minogue

Every day's the same  
Feeling every shade of grey  
Playing by the rules when you wanna be led astray  
Gonna miss that train, don't take me home  
I've got all I need right here  
Soaking up the sound, gonna wash it all away  
Raining glitter down on us tonight  
Covering us all in magic  
Never even seen them stars so bright  
As the look in your eyes  
Raining glitter down on us tonight  
No more hiding in the shadows  
Ooh, you look like diamonds in the light  
Everybody put your hands up to the sky  
And let it rain  
(Whoop!) We can let it rain  
Let it rain down silver and gold  
We all want the same  
Yeah, we're looking for that hand to hold - oh, oh  
And a stolen kiss that feels so good  
That it might just change your world, mmm  
You can call us fools, but these dreams will never get old  
Raining glitter down on us tonight  
Covering us all in magic (magic)  
Never even seen them stars so bright  
As the look in your eyes  
Raining glitter down on us tonight  
No more hiding in the shadows  
Ooh, you look like diamonds in the light  
Everybody put your hands up to the sky  
And let it rain  
This is what it's about  
Never stop  
(Whoop!)  
Say my name, hold me tight  
In the drop  
(Whoop!)  
'Cause we're not, no, we're not giving up on love  
Raining glitter down on us tonight  
Covering us all in magic (magic)  
Never even seen them stars so bright  
As the look in your eyes  
Raining glitter down on us tonight  
No more hiding in the shadows  
Ooh, you look like diamonds in the light  
Everybody put your hands up to the sky  
And let it rain (Whoop!)  
Baby, let it rain

(Whoop!)
