

What Would I Do?

FUR

Stop (stop)
Thinking 'bout the raindrops
On my window pane at night
A lot (lot)
Can change about the way you feel
I guess I was learning that the hard way
All of my friends
Are about to be no one
I kind of feel for myself
Hot (hot)
Breath is clouding up my view of myself
In the mirrored glass
What (what)
What did you expect from me
I told you all there was to know
All of my friends
Are about to be no one
I kind of feel for myself
Selfish as I can appear at times
I want you to know I try
All of my friends
Are about to be no one
I kind of feel for myself
Please don't go away
What would I do?
What would I say?
Please don't be that way
What should I do?
What should I say?
