

# Use My Body while It's Still Young

[Rebekka Karijord](#)

Use my body while it's still young  
Celebrate the life in my bone  
My pounding heart oh make it rush and run Use my palms to tie down the dark  
The muscles and the veins could be sparks  
To lift you up to make us glow at night (2) The only thing that stops this noise is skin (2) Use my  
words to make you feel safe  
The syllables can tip on your head  
Can make you smile so use them for a while (2) The only thing that stops this noise is skin Use  
my body while it's still strong  
Wrap yourself in all of this warmth  
This aching love come use it while it's alive (2)  
We'll all be gone in a hundred years
