

Fall

The Presets

Come, come now closer now lover,
Know I need you next to me,
Eyes across the room can feel so far away.
All desires I feel, I don't have the words to say,
Baby, when you're near, you get me close to it. In your arms I'll fall
All the way to hell
Like two soft-bodied eggs,
In those arms I found my love
Oh, oh, oh, oh
Fall, all the way down
Like two soft-bodied eggs,
In this hell we found our heaven,
Oh oh oh oh...
Darling it was on a night like this,
I remember we first touched,
Fearless in the face of all hostilities...
And on this runaway train, only need you next to me,
Speeding as we watch the fade to history In your arms I'll - fall - all the way hell,
Like two soft-bodied eggs,
Cause in those arms, I found my love
Oh oh oh oh
We're all, all the way down,
Like two soft-bodied eggs,
In this hell we found our heaven
Oh oh oh oh
All, all the way to hell, In this hell we found our heaven, heaven, heaven in it
(Oh, no) (oh, no)
Oh oh oh oh
Let's fall, all the way to hell,
Like two soft-bodied eggs,
In your arms I found my love
Oh oh oh oh,
We fall, all the way down,
Like two soft-bodied eggs,
In this hell we found our heaven, heaven, heaven.
