

# Body Moves

## DNCE

Ow!  
Hey!  
That's right  
Oh!Side by side  
Walking home, stumbling home, getting curious  
What's on your mind?  
Cause what's on mine's a dirty mind  
Why so serious?Baby the stars above will light the way  
Just take my hand and hear the words I say  
Yeah, when the morning comes, I'll always stay  
You gotta know, you gotta know that I'm feeling this, ow  
Come and roll with me, we'll rock them body moves  
Me and you (oh, just a little bit)  
Body moves (yeah, just a little bit, ow!)  
Come on home with me, oh baby, let it loose  
Me and you (oh, just a little bit)  
Body moves (yeah, just a little bit)  
I don't need it, but you know how bad I want it  
And your touch has got me haunted, but I li-i-ike it  
Come and roll with me, we'll rock them body moves  
Me and you (oh, just a little bit)  
Body moves (yeah, just a little bit)Got all night  
Show me more, a little more, it's getting scandalous  
Yeah, all my life, yeah  
Waiting for the girl next door to get real dangerous  
Baby the stars above will light the way  
Just take my hand and hear the words I say  
Yeah, when the morning comes, I'll always stay  
You gotta know, you gotta know that I'm feeling this, owCome and roll with me, we'll rock  
them body moves  
Me and you (oh, just a little bit)  
Body moves (yeah, just a little bit, ow!)
