

Open Your Eyes

Andrew Belle

Open your eyes now
Open your eyes now
It's time to see
If you can reach me Open your eyes now
Open your eyes now
It's time to leave
It's time to leave me Open your eyes now
Open your eyes now
It's time to see
If you still believe me
Open your life now
Open your life now
I'll try to be
All that you need me
To be She'll be a star now
I will follow her lead
She'll be a scar now
I will still let her bleed Open your eyes now
Open your eyes now
Try to speak
Like you can see me Open your eyes now
Open your eyes now
I'll try to be
Almost everything
You need me to be She'll be a star now
I will follow her lead
She'll be a scar now
I will still let her bleed
All over me She'll be a star now
She'll be a scar now She'll be a star now
She'll be a scar now She'll be a star now
She'll be a scar now She'll be a star now
She'll be a scar now She'll be a star now
She'll be a scar now She'll be a star now
She'll be a scar now
I will let her bleed
All over me All over me
