

# This Time

## Axwell ? Ingrosso

This time,  
This time,  
We can't go home  
This time,  
This time,  
We can't go home  
This time,  
This time,  
We can't go home  
This time,  
This time,  
We can't go home  
This time,  
This time, we can't go...This time,  
This time we can't go home.  
This time, This time we can't go home  
I can hang my hat anywhere  
I can start, I can finish here  
It's the spark of a millionaire  
Remind yourself, its like magic  
Its not averge, its more tragic  
More tribal, more savage  
In a world where youre surrounded by the plastic  
Free your mind and just lose it  
No test drive, just do it  
This murder is so accidental  
Us building is so monumental  
Got me in my zone  
Had to build my own  
They put me in my throne  
But this time,  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time we can't go home  
This time,  
This time we can't go...  
This time,  
This time we can't go...  
This time we can't go home  
This time we can't go home

This time we can't go home

This time,

This time we can't go...

This time we can't go home

This time we can't go home

This time we can't go home

This time we can't go...
