

This Time

Axwell ? Ingrosso

This time,
This time,
We can't go home
This time,
This time,
We can't go home
This time,
This time,
We can't go home
This time,
This time,
We can't go home
This time,
This time, we can't go...This time,
This time we can't go home.
This time, This time we can't go home
I can hang my hat anywhere
I can start, I can finish here
It's the spark of a millionaire
Remind yourself, its like magic
Its not averge, its more tragic
More tribal, more savage
In a world where youre surrounded by the plastic
Free your mind and just lose it
No test drive, just do it
This murder is so accidental
Us building is so monumental
Got me in my zone
Had to build my own
They put me in my throne
But this time,
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go home
This time,
This time we can't go...
This time,
This time we can't go...
This time we can't go home
This time we can't go home

This time we can't go home
This time,
This time we can't go...
This time we can't go home
This time we can't go home
This time we can't go home
This time we can't go...
