

With or Without You

Dope

I'll do my time and I won't argue
A broken glass, a portrait of you
I play on keys of barely in tune
Forget the reasons, I won't resume It's not me who wanted fame
Well, I just needed to I cash my life and lost my ID
Well, apathy is all I see
Leave the numbers all behind me
You are all, I've got inside me Well, I don't need to be encaged
Well, I just need to rearrange
Well, I can't see you anymore
And I can't leave right out the door
Well, after all that we've been through
Well, I can't be with or without you With or without you
With or without you You finally made it on TV
It's not the way you hoped it'd be
And all the pain of the insanity
Was this ever meant to be And I don't think that I am thee
One that you keep telling me Well, I can't see you anymore
And I can't leave right out the door
Well, after all that we've been through
Well, I can't be with or without you
With or without you
With or without you It's tearing us up
And it's breaking me down
(With or without you)
All I'll be, I'll be
With or without you With or without you
With or with And after all that we've been through
Well, I can't be with or without you
And I can't see you anymore
And I can't leave right out the door Well, after all that we've been through
Well, I can't be with or without you With or without you
With or without you
With or without you
With or without you
