

# Castles (Live at Omeara)

## Freya Ridings

You left my love, you hit the target  
You got that rush and then you walk out the door  
You kept me small, is what you wanted  
I never noticed You held my hand into the darkness  
I didn't care it made me just want you more  
My god your love it seems so heartless  
I never noticed And I hate that you're gone  
And I hate that I don't wanna let go  
And I hate that you think that I'm weak  
Cause I don't wanna let you know  
That I'm gonna build castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be more than  
You ever thought I was  
You ever thought I was Each time you left, there was a hunger  
I felt so scared, couldn't take anymore  
Losing your love, it made me strong  
I never noticed And I hate that you're gone  
And I hate that I don't wanna let go  
And I hate that you think that I'm weak  
Cause I don't wanna let you know  
That I'm gonna build castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be more than  
You ever thought I was  
You ever thought I was That I'm gonna build castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be more than  
You ever thought I was  
You ever thought I was Castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be so much more than  
You ever thought I was  
You ever thought I was Castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be more than  
You ever thought I was

You ever thought I was I'm gonna build castles  
From the rubble of your love  
From the rubble of your love  
I'm gonna be stronger than  
You ever thought I was  
You ever thought I was
