

Wolfpack (feat. Maskarade)

The Bloody Beetroots

Cut throat
Flesh and bone
Yeah, that's how it goes
Looking for that blood (looking for that blood)
You never know what way that we're coming from
Till we bring the flood Marching forward relentlessly
Taking over ferociously
Cause we've got that fire in our eyes (in our eyes) And once we've got a hold of it
We're never letting go (never let it go) We're making our way through the night
We capture what catches our eyes
Overthrow the throne
Yeah the cover's blown
And you're on the run (on the run)
But you know you can never get away
Get away from us (get away from us) Marching forward relentlessly
Taking over ferociously
Cause we're got that fire in our eyes (in our eyes) And once we've got a hold of it
We're never letting go (never let it go) Come on, gather around
We're in this together
Come on, gather around
Come on, gather around
We're in this together
Come on, gather around
We're making our way through the night
We capture what catches our eyes
We're making our way through the night
We capture what catches our eyes
