

My Favorite Part (feat. Ariana Grande)

Mac Miller

Don't know why thinking of him makes me smile...Said, you just don't know how beautiful you
are

And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart
It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushing into love
Said, you know I know who you really are, ain't need to lie
Said, the universe couldn't keep us apart
Why would it even try?
Yeah, said, don't let them hurt you ever
I know you far too smart
Before things come together, they have to fall apart
It's been a while since I've been sober

This life can be so hard, I'd rather talk about you Said, you just don't know how beautiful you are

And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart
It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushing into love
If you wanna stay, we're taking it slow baby
Cause you and me, and I got enough on my mind

But I can make some time for something so divine Said, you just don't know how beautiful you
are

And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart
It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushin' into love
