

# Down in the Woods

[Richard Hawley](#)

They think tv is the thing  
They think cars have a thing  
Kiss your kind, apple cheeks  
Stole the love wonder...trees  
Won't you follow me down  
Down in the woods  
Won't you follow me down  
Come and feel good  
There must be a place for us  
For you and I to be as one  
Round your shoulders, round your hair  
My eyes were blinded by solar flares  
Won't you follow me down,  
Down in the woods  
Won't you follow me down  
Come and feel good  
...deep and ... kiss you hold  
Away, whoa,  
There must be a place for us  
For you and I to be as one  
Round your shoulders, round your hair  
My eyes were blinded by solar flares  
As I feel lost, ...you  
Does this .kiss from you  
Take all that's been ...all that's cold  
Does the shadow in me show?  
Wise up, she could see, ...and loose your hope  
For the days, these woods are sold  
I would like you to know  
I love you  
I love you  
Won't you follow me down  
Down in the woods  
Won't you follow me down  
Come and feel good  
Come and feel good  
Down in the woods  
Come and feel good  
Good, good, good, good.
