

# One Life

## Justin Bieber

So girl  
You just be honest with me, I know we can make this work  
I love you I know that you afraid, babe  
But you don't need to be saved, babe  
You just need someone who understands  
And I think I need the same, babe  
Show me where you at, let's keep it honest  
Home is where you at and that's a promise  
Open up and never keep it from us  
Nothing left between us, baby, nothing  
Tell me what you want, let's keep it gangsta  
Tell me who created you, I'd thank her  
Open up and never keep it from us  
Nothing left between us, baby  
Hopefully you'll give me a chance  
All I want is love and romance  
I wanna give it all, give it all to you I wanna dream what you dream  
Go where you're going  
I only have one life  
And I only wanna live it with you  
I wanna sleep where you sleep  
Connect with your soul  
The only thing I want in life  
I only wanna live it with you  
Oh yeah, oh yeah  
I only wanna live it with you  
Only wanna live it with you  
Tell me what you want, I can't believe it  
I know that if we make it there's a reason  
Sometimes the sun shines, baby  
Sometimes it ain't breezy  
I hope that maybe this time may be different  
I told you I'mma make it, a commitment  
Yeah, you took your shot and didn't miss it  
Ain't nothing more attractive than a mission Hopefully you'll give me a chance  
All I want is love and romance  
I wanna give it all, give it all to you I wanna dream what you dream  
Go where you're going  
I only have one life  
And I only wanna live it with you  
I wanna sleep where you sleep  
Connect with your soul

The only thing I want in life  
I only wanna live it with you  
Oh yeah, oh yeah  
I only wanna live it with you  
Only wanna live it with you If I came to your crib would you open the door?  
I don't wanna go down that road no more  
Said you wanted it bad, but girl I wanted it more  
You're the only one I wanna be with, yeah, yeah I wanna dream what you dream  
Go where you're going  
I only have one life  
And I only wanna live it with you  
I wanna sleep where you sleep  
Connect with your soul  
The only thing I want in life  
I only wanna live it with you  
Oh yeah, oh yeah  
I only wanna live it with you  
Only wanna live it with you
