

# All These Years

Camila Cabello

[Verse 1]

Your hair's grown a little longer  
Your arms look a little stronger  
Your eyes just as I remember (oh)  
Your smile's just a little softer[Pre-Chorus]  
And I, yeah, I never prepared for a moment like that  
Yeah, suddenly, it all came back, it all came back[Chorus]  
'Cause after all these years  
I still feel everything when you are near  
And it was just a quick "hello," and you had to go  
And you probably will never know  
You're still the one I'm after all these years

[Verse 2]

Couldn't help but overhear you  
Sounds like you're happy with her  
But does she kiss you like I kissed you?  
Ooh, I wish I loved you like I miss you[Pre-Chorus]  
And I, yeah, I never prepared for a moment like that  
Yeah, suddenly, it all came back, it all came back[Chorus]  
'Cause after all these years  
I still feel everything when you are near  
And it was just a quick "hello," and you had to go  
And you probably will never know  
You're still the one I'm after all these years, oh  
'Cause after all these years  
I still feel everything when you are near  
And it was just a quick "hello," and you had to go  
And you probably will never know  
You're still the one I'm after all these years

[Outro]

I never told you, I should've told you  
I never told you after all these years  
I never told you after all these years  
Told you, I never told you, I never told you  
I never told you after all these years
