## **Demons**

## Guster

My words confuse you My eyes don't move or blink 'Cause it's easier sometimes not to be sincere Somehow I make you believe Believe...When I speak I cross my fingers Will you know you've been deceived? I find a need to be the demon A demon cannot be hurt Honest is easy Fiction's where genius lies 'Cause it's easier sometimes not to be involved Somehow I make you believe believe Believe...When I speak I cross my fingers Will you know you've been deceived? I find a need to be the demon A demon cannot be hurtWhen I speak I cross my fingers Will you know you've been deceived? I find a need to be the demon A demon cannot be hurt When I speak I cross my fingers Will you know you've been deceived? I find a need to be the demon A demon cannot be hurt
