

Heavenly Father

Bon Iver

Ever since I heard the howling wind
I didn't need to go where a bible went
But then you know your gifts seemed heaven sent
Just lead me to a choler, dad, that's the thing I don't know how you house the sin
But you're free now
I was never sure how much of you I could let in
And I'm free now
Won't you settle down baby here your love has been
Heavenly father
It's defiantly lava
Why you don't carry other names
Heard about a day where it dropped the Know
To go another day as we learn to close Cause I'm a known coward in a coward wind
But you're free now
You turn around now and you count to 10
To see you go now
Well i know now honey that i can't pretend
Heavenly father
Is whose brought to his autumn
And love is left in end
I just been up here for god damn years
Can you see now?
Filling up hulls with god damn fears
I am free now
I know about it darling, I've been standing here
Heavenly father
Is all that he offers
A safety in the end
