

Drive

DJ Fresh

I wanna go somewhere so take me, show me fire
I wanna go somewhere, I don't care, hold me tighter
I wanna go somewhere so drive me, drive me faster
HeySpeed up on a highway
Slow down, do what I say
So hot when you touch me
Real love when you kiss me
Make me wanna come alive
Baby, you know what I like
Fast car, take me for a ride
Just drive

Drive, drive, drive

I wanna go somewhere so take me, show me fire
I wanna go somewhere, I don't care, hold me forever
I wanna go somewhere so drive me, drive me faster
Hey, heyDrive

I wanna go somewhere, take me, take me higher
I wanna go somewhere, take me, hold me tighter
I wanna go somewhere, drive me, drive me faster
HeyDrive, drive, driveBreak bugs on our windscreen
Headlights on a full beam
Waking up when the sun goes down
Give it to me right now, now, now
Black van on a night sky
Love when it's just you and I
Red light running out of time
Just drive, drive, drive, drive

I wanna go somewhere so take me, show me fire
I wanna go somewhere, I don't care, hold me forever
I wanna go somewhere so drive me, drive me faster
Hey, heyDrive

I wanna go somewhere, take me, take me higher
I wanna go somewhere, take me, hold me tighter
I wanna go somewhere, drive me, drive me faster
Hey

Drive, drive, driveTake me, I wanna go somewhere
New York, I wanna go somewhere
Wait, now I need to go somewhere
Stand up, put your hands in the air
Belgium, I wanna go somewhere
Bombay, I wanna go somewhere
London, I wanna hear you scream

Hey, hey, hey, hey, hey, heyDrive, I want to drive
