

# Like a Drug (Live In New York)

Kylie Minogue

Boy, yeah you got it, got it  
You've got me feelin' crazy 'bout my body  
I, I cannot, cannot stop it  
You got me movin' got me rockin', rockin' Make me feel like I could make it real  
You got me hooked, get me on the floor  
If I'm a tease and you're the one to please  
I want more Make me feel like I could make it real  
You got me hooked, get me on the floor  
If I'm a tease and you're the one to please  
I want more Dance like I'm the only, only  
Like I'm the only lady like you want me  
Damn right, I have my radar on you  
So let's get physical, I want to want to  
Make me feel like I could make it real  
You got me hooked, get me on the floor  
If I'm a tease and you're the one to please  
I want more I never had a ride, as delicate and fine  
You really blow my mind  
When we rock, when we rock  
I really wanna do, everything with you  
The things you make me do Like a drug, like a drug  
Like a drug, like a drug  
Like a drug, like a drug  
Like a drug, like a drug Make me feel like I could make it real  
You got me hooked, get me on the floor  
If I'm a tease and you're the one to please  
I want more  
Make me feel like I could make it real  
You got me hooked, get me on the floor  
If I'm a tease and you're the one to please  
I want more I never had a ride, as delicate and fine  
You really blow my mind  
I really wanna do, everything with you  
The things you make me do Like a drug, like a drug  
Like a drug, like a drug  
Like a drug, like a drug  
Like a drug, like a drug
