

Iron (feat. Nicky Romero)

Calvin Harris & Nicky Romero

Love the way I feel
Streets replaced with fields
Wide awake in here
You shineRan away from goals
Left you in the cold
Nothing's in our way tonight
You know that you'll never be replacedAnd everyone here made the same mistakes as me
And either way our time won't go to waste
Our hearts will never be the same again
Our hearts will never be the same again
Our hearts will never be the same again
