

# All Day

## LOCASH

Got a little wheel in my left hand  
Got a left hand in my right hand  
Got a little highway, no plans  
I could do this all dayCoast down that coastline  
Hide from the world in the Georgia pines  
Sneak a little kiss at that stop sign,  
I could do this all dayLittle more of that can't stop,  
Lookin' at you in that tank top  
Burnin' it up in that shot gun, so hot  
Blowin' me awayLittle bit of that cool breeze  
Leave a little lipstick on me  
Ain't no worry, don't worry about me  
Cause I could do this all day  
Radio got a little groove on  
Baby gon' got a little move on  
Every song on is a love song  
I could do this all dayGettin' on home past midnight  
Lookin' like another sunrise  
Go and take your sweet time  
Cause I could do this all dayLittle more of that can't stop,  
Lookin' at you in that tank top  
Burnin' it up in that shot gun, so hot  
Blowin' me awayLittle bit of that cool breeze  
Leave a little lipstick on me  
Ain't no worry, don't worry about me  
Cause I could do this all day  
All day, all night  
Alllllll dayyy  
All day, all night  
Alllllll nighttttGot a little wheel in my left hand  
Got a left hand in my right hand  
Got a little highway, no plansLittle more of that can't stop,  
Lookin' at you in that tank top  
Burnin' it up in that shot gun, so hot  
Blowin' me awayLittle bit of that cool breeze  
Leave a little lipstick on me  
Ain't no worry, don't worry about me  
Cause I could do this all dayLittle more of that can't stop,  
Lookin' at you in that tank top  
Burnin' it up in that shot gun, so hot  
Blowin' me awayLittle bit of that cool breeze  
Leave a little lipstick on me

Ain't no worry, don't worry about me  
Cause I could do this all dayAll day, all night  
All day, all night
