

# Nobody Cares

## Superorganism

Incomplete without tearing up all of the sleeves  
Nobody cares  
You look fine, no I don't, let's consult our favorite recipe  
Nobody cares  
Oh no, nobody cares  
Out we go into the world of scary eyes and lies  
Low key baby, I'm never feeling quite alright  
Nobody cares  
Oh no, nobody cares  
Oh no, nobody cares  
How am I to care, how am I to care  
How am I to care when nobody else does  
Sweet relief when you grow up and see for yourself  
Nobody cares  
Have a drink, have a smoke, do whatever you need to unload  
Nobody cares  
Oh no, nobody cares  
Record skip, tripping over, falling up the stairs  
Awkward kids putting gel into their greasy hair  
Nobody cares  
Oh no, nobody cares  
Oh no, nobody cares
