

# Swear Like a Sailor

## Tep No

I had a thought running through my head  
Now you're gone, I don't remember it  
I had the life and then I see you  
Now our love is all see-through  
So, no worries, no worries, no worries now  
'Cause love just comes and goes  
No worries, no worries  
I swear like a sailor, sailor from my bad behavior  
And if you come and go it won't matter anymore  
It won't matter anymore, no  
And if you can't stay slow, I'll be waiting at the door  
I'll be waiting at the door, oh  
And if you come and go it won't matter anymore  
It won't matter anymore, no  
And if you can't stay slow, I'll swear like a sailor  
Sailor from my bad behavior  
And if you come and go it won't matter anymore  
It won't matter anymore, no  
And if you can't stay slow, I'll be waiting at the door  
I'll be waiting at the door, oh  
I have a lover back in England  
She's a star, she's like Taylor Swift  
I come home, don't remember it  
'Cause she's gone, she don't exist.  
So, no worries, no worries, no worries now  
'Cause love just comes and goes  
No worries, no worries  
I swear like a sailor, and say screw you Taylor Swift!  
Screw you Taylor Swift!  
And if you come and go it won't matter anymore  
It won't matter anymore, no  
And if you can't stay slow, I'll be waiting at the door  
I'll be waiting at the door, oh  
And if you come and go it won't matter anymore  
It won't matter anymore, no  
And if you can't stay slow, I'll swear like a sailor  
Sailor from my bad behavior
