

# Play

## Marian Hill

Boys, they always have their toys  
They're making all the noise  
they mess around  
But they can't seem to stay  
When something comes their way  
They pick it up and play  
They love it till they drop it but not you  
You play but never games  
You stay here all the same And you can't keep from knocking on my door  
You're chocolate on my tongue my drink when day is done  
And I can't keep from knocking on your door  
Play me baby  
Play me baby  
You wanna play me baby  
Play me baby  
You wanna play me baby  
Men have money left to spend and lots of many friends  
They learnt how to pretend they're having fun  
Mature not over done  
They're drinking till they're numb  
They'll settle for the everyday  
Not you, you party till its dawn  
And hold me all day long And you can't keep from knocking on my door  
You're chocolate on my tongue my drink when day is done  
And I can't keep from knocking on your door  
Play me baby  
Play me baby  
You wanna play me baby  
Play me baby  
You wanna play me baby  
Play me baby  
You wanna play me baby  
Play me baby  
You wanna play me baby
