

# Unbeliever

## You+Me

I've been wanting too  
This day it is  
With the devil's voice inside my head  
And the streets they're all, they're after fortune  
And the sky is painted about our grave  
But I keep hanging on  
I keep hanging on  
And on Now I'm 1000 miles away from nowhere  
And the night is turning, is turning bleak  
Fear comes pouring down  
And I fear desire, someone's fading me  
But I keep hanging on  
I keep hanging on  
And on  
Now I don't plan  
Much to offer  
I thought that it was pain to see  
Explain on just an unbeliever  
And I believe you can count on me  
If you keep hanging on  
Just keep hanging on  
And on
